

**Who We Are**

NRLN is a nonpartisan, nonprofit organization representing over 2 million seniors and retirees age 50 and older from over 300 companies and public entities, from all states and 75% of Congressional Districts. We proactively lobby to protect pensions, Social Security, and Medicare and to reduce healthcare costs, especially the high cost of prescription drugs.

**Who Makes Up the NRLN**

We're composed of Retiree Associations, Chapters, and Individuals. Individual Member contributions support 80% of our budget.

**Congress is very partisan and anti-Retiree**

Congress has become compromised by excessive contributions from those who want to privatize Social Security, and Medicare and keep prescription drug prices high. Many in Congress serve their need to be re-elected or party success, not constituents. The NRLN is your non-partisan voice in Washington, DC.

**NRLN Members Respond to Action Alerts**

Action Alerts to NRLN Grassroots Members and Sample Letters they email their U.S. Representatives and Senators and at times the President are essential. The letters urge:  
-- NRLN's proposals to protect Social Security and Medicare for 75 years.  
-- Protect retirees in pension "de-risking" when a plan Sponsor converts pensions with the purchase of an Insurance company annuity.  
-- Congress should do more to reduce drug prices.

- Stop undermining traditional Medicare with taxpayer subsidies to insurance companies.
- Cut Medicare waste, not benefits!
- End pay-for-delay that blocks generics.
- Allow Americans to import prescription drugs from licensed Canadian sellers.
- Serve Americans' interests, not Big Pharma.

**NRLN Advocacy Issues Based on Research**

NRLN's whitepapers are written by the American Retirees Education Foundation (AREF), a nonprofit, formed to do research and education for the NRLN. Here are the titles of a few whitepapers:  
-- Pension Plan "De-Risking": Strengthening Fiduciary Duties to Protect Retirees  
-- Protecting Retirees in Mergers, Acquisitions & Spin-offs  
-- Protecting Retiree Benefits in Corporate Bankruptcy  
-- Pension Asset Protection (PAP) – Back Door Reversions  
-- Time to End Taxpayer Rebates to Private Health Insurance Industry  
-- Reduce the Price of Prescription Drugs  
-- Defined Benefit Pension Plan Mergers
